The Carter Hill Lot is located on the southerly shore of Lower Kezar Pond in Fryeburg, Maine and is accessed from Route 302 in East Fryeburg by way of the Carter Hill Road which leads to and through the Carter Hill Lot.

The Carter Hill Lot is made up of the following parcels conveyed to Hugh W. Hastings II, David R. Hastings II and Peter G. Hastings:

1. A lot identified as the Carter Hill Lot/McIntire Lot conveyed by Lawrence M. Gray by deed dated September 5, 1972 and recorded in the Oxford Count Registry of Deeds at Book W209, Page 499, at the bottom of that page. This lot is shown on a plan prepared by Lawrence M. Gray for himself in 1943 and recorded in said Registry at Plan Book W2, Page 7. The deed describes it as the upland behind the meadow conveyed in the next deed and says it contains 125 acres, more or less. The line dividing this lot from the adjacent land now or formerly of Goddu, and now or formerly of Ives at the northwesterly corner of the land shown on the Lawrence Gray plan was re-surveyed in 2005 by Bliss & Associates on a plan for Allison, Webb and Ives recorded at Plan Book W16, Page 13 which places the common boundary line between those properties in a slightly different location. It is believed that the Bliss plan is accurate.
2. A second deed from Lawrence M. Gray, also dated September 5, 1972, and recorded at Book 209, Page 499 at the top of that page conveying meadow land adjoining the northerly line of the Carter Hill/McIntire lot described above between Elkins Brook to the east and the Ives property to the west.

Smith lot included in the Hastings Carter Hill Lot is bounded on the west by the above land conveyed by Lawrence M. Gray, on the east by Elkins Brook and on the south by a separate parcel owned by Thomas Hastings, John Hastings, Ellen Zelman and Jane Rosenberg.

The above lot was conveyed to Hugh W. Hastings II, Norene M. Hastings, David R. Hastings II, Doris M. Hastings, Peter G. Hastings and Anne A. Hastings by Hugh W. Hastings II et al dated December 27, 1984 and recorded in said Registry at Book 265, Page 913 as Parcels 7, 9, 10 and 11. Hastings dated November 8, 2021, and recorded in said Registry at Book 5561, Page 668 as parcels 48, 49, 50 and 51.. Peter G. Hastings II acquired a 1/8th interest by deed of Peter G. Hastings dated March 31, 1999 and recorded in said Registry at Book 393, Page 587 in Item A. Thomas W. Hastings, Ellen H. Zelman, John M. Hastings and Jane H. Hastings, one dated March 28, 1991 as Items 7, 9, 0 and 11. and recorded in said Registry at Book 317, Page 388. Page 861. David R. Kezar Pond is a large, shallow, and weedy body of water that provides excellent habitat for warmwater fish species. The pond is equal in elevation to the Saco River and the water level can fluctuate +/- 10 feet. This changing water level also causes the pond size to vary. The shorelines are sparsely developed and the pond offers panoramic mountain views of New Hampshire's Presidential Range.

This water is extremely productive for warmwater fish species. Chain pickerel, yellow perch, and white perch are abundant and of relatively good size quality. Kezar Pond provides excellent growth opportunities for largemouth bass and trophy largemouths are commonly caught. However, the high

number of predators limits their abundance. Anglers fish this water due to difficulty, but summer and winter fishing typically have good action.

Cusk were discovered in the late 1960s. It is unknown if they were illegally introduced. It remains to be seen whether or not a cusk fishery will develop.

Access for car-top boats and canoeing is available from Hemlock Bridge Road at the old cove. The pond can be reached by following the road upstream for approximately one mile.
